

**Algebra II**  
**Mrs. Davis**  
Room 818

**Nuts and Bolts**

**Classroom Expectations:**

1. No arguing with the ref
2. Be respectful.
3. Be engaged.

If you CHOOSE to not meet these EXPECTATIONS:

**1<sup>st</sup> Consequence:** Verbal Warning

**2<sup>nd</sup> Consequence:** Documented Minor

**3<sup>rd</sup> Consequence:** 2<sup>nd</sup> Minor, Detention, Contact Parents

**4<sup>th</sup> Consequence:** Documented Major, Meeting with Principal

**Materials:**

Pencil & Pen

Highlighter

Spiral Notebook (Math only)

**Graphing Calculator TI-84**

Headphones

**Classroom Procedures:**

Right when the students walk into the classroom, they will immediately start working on the *warm-up*. This is an introductory activity to get into the “math mind set”. It may cover the materials posted in the video, review problems or an opportunity to provide evidence of learning.

After the warm-up, we will continue our learning through group work, small group teaching, or hands on activities. In this class, we do not value speed or students racing through math. We value people showing how they think about the math and the creative representation of ideas. Students may be learning different concepts at different times, and that is ok. In this classroom, we are always learning and working to become better at math than the day before.

**Assessments & Grading:** See Description on Blog and PV Grading Rubric.

**Algebra II**  
**Mrs. Davis**  
Room 818

*Procedure Specifics!*

**Practice:**

We are going practice math in a variety of ways to show evidence of learning. All practice problems must be written in student's **MATH NOTEBOOK**. This notebook is *ONLY* for *MATH*! I will not collect practice problems; however, the practice makes you better at math. You learn from your mistakes in the practice. Utilize this opportunity to learn!

**Reassessment Policy:**

Students will be given multiple opportunities to show their leaning. If students would like another opportunity to show evidence learning the standard, students may be able to show their learning from previous mistakes. Students must have these things complete in order to show their understanding:

- 1) Practice is complete.
- 2) Contact Mrs. Davis for the opportunity to complete corrections.
- 3) Complete Assessment Reflection Form.
- 4) Update feedback.

**Tardies:**

All tardies will be in accordance with the PV policy. Be here on time!

**Restroom Policy:**

You may choose to go to the restroom before the bell. If you need to go during class, please sign out and in on the green sheet.

**Phone Policy:**

Leave your phones in your lockers. I will let you know when you need them.

**Technology**

Students will need to have a graphing calculator for Algebra II. Students will be able to access their books online at home. I strongly encourage students to use the online version. There are videos and tutorials that can help students. Overall, we will be incorporating a lot of technology into the classroom, and students should be open-minded about the new technology!

If you have any questions, students or parents, can email me at [vdavis@waukeeschools.org](mailto:vdavis@waukeeschools.org) or call me at ext. 2189 between 7:30 and 8:45 and/or after school.

~Mrs. Davis
